ACHIEVEMENTS & INTERNSHIP

- Got an offer letter of WIPRO WILP 2023
- Got an offer letter from Maxwell It Solutions LLC for the post of Python Developer 2024
- 4 weeks Virtual Web Development Internship by CodSoft
- 3 month Internship in Artificial Intelligence by Skolar
- 2 Month Crowd funding by Muskurahat Foundation
- 2 month Daanutsav Volunteering by Muskurahat Foundation

ADDITIONAL SKILLS

- > Owner and founder of 4 YouTube channels each one were categorized for different streams (Technical Updates, Educational insights, Vlogs and Photo editing) I am a dedicated content creator with over 30K + YouTube family. I excel in diverse content production, including video scripting, filming, and editing, ensuring high-quality content that engage my audience. I leverage SEO strategies to optimize my visibility and growth. I regularly adjust my content to ensure it is interesting & meaningful to my audience.

PROJECTS

Myntra Clone

Myntra Online Shopping using HTML and CSS! Responsive layouts for seamless browsing across devices. Styled to mimic the Myntra platform's aesthetic and functionality
Key highlights: Clean, modern UI & attention to detail.

Calculator

I recently completed a project that combines my coding passion with practical application: a fully functional calculator built with HTML, CSS, and JavaScript! Key features include a user-friendly interface with a clean CSS grid layout, input options for both keyboard and mouse, support for basic operations (addition, subtraction, multiplication, and division), a real-time display for clear input and results, and interactive elements using event listeners for seamless user interaction.

Portfolio

I created a personal portfolio using HTML and CSS to showcase my web development skills. This beginner-friendly project features my name, logo, and tagline in the header, along with a personal image and bio in the "About" section. It highlights my key skills, showcases my projects with titles and images, and includes a PDF download link for my resume. The "Contact" section provides my information and a communication form, while the footer contains a copyright notice and engagement links.

Flipkart Clone

Flipkart Online Shopping using HTML and CSS! Built responsive layouts for seamless browsing across devices Styled to mimic the aesthetic and functionality of the Flipkart platform
Key highlights: Login page, clean modern UI, and attention to detail This project enhanced my HTML and CSS skills and deepened my understanding.

Landing Page

The landing page features a header with my name and responsive design options, navigation links to Home, Explore, Coding Solutions, Contact, and Register, an Explore section with FAQs, a Coding Solutions section with instructions on HTML, CSS, and color palettes, and a Contact section for easy access to my info and a message form. The footer includes a copyright notice and additional engagement links.

Image Gallery

I'm excited to share my latest project: an interactive image gallery! Built with HTML, CSS, and JavaScript, it offers a visually appealing layout and seamless navigation. Key features include responsive design for optimal viewing on all devices, smooth transitions for a dynamic experience, and user-friendly navigation for effortless browsing. This project has sharpened my web development skills and deepened my understanding of user interfaces.

CERTIFICATES

- CPDA (Certified python Developer Associate) 2024 by Techcert Labs.
